MANAGERS MESSAGE

Welcome to the first South City Childrens Disability Network Team (CDNT) Newsletter. This newsletter was developed in response to feedback from families who attend our service. We hope to send this newsletter out about 4 times per year. I hope that you find it informative and useful.

Aisling Shinnick
CDNT Manager

MEET YOUR OCCUPATIONAL THERAPISTS

We have one full-time and one part-time occupational therapists- Lisa & Kate B. Occupational therapists (OTs) work with children in various settings, including clinical, school environments, and the home. OTs look at a child's functional strengths & areas of difficulty across different performance areas including activities of daily living, school, play and leisure and assist with strategies to promote independence, participation and quality of life. Occupational therapy helps children build essential life skills and enhance their overall well-being and participation in their daily activities.

USEFUL TIPS/SUGGESTIONS FROM YOUR OT

A tip for learning to a new skill such as dressing, buttons, zips or shoelaces. Try the backward chaining method. This involves breaking down the task into small achievable steps, always ensuring your young person achieves success.

YOUR FAMILY NETWORK
